Course Description

This course surveys Asian American cultural expressions in literature, film, and other popular venues to understand the social experiences that helped forge Asian American culture and identity. The course is divided into three units. We will examine the construction and negotiation of concepts such as Asian Americans and “Orientals,” the Model Minority, and Refugees. The first unit provides an overview of the stakes of cultural representations and examines the gendered construction of Asian Americans as “Orientals.” The second unit focuses on the ways in which the post-1965 immigration transformed the face of Asian America, posing new theoretical questions about identity and politics. Finally, the third unit will explore the Asian American refugee subject in order to critique the “immigrant narrative.” This course pays particular attention to the ways in which Asian Americans negotiate social forces in their everyday lives. Towards this end, we consider queerness, silence, and expressive cultural forms in order to explore questions of agency and identity for Asian American communities.

Assignments & Grading Criteria

Attendance & Active Participation (20%)

You should come to class fully prepared to engage with the professor and your peers on the assigned readings for the week. More than 2 unexcused absences will result in a failing grade for this category. In order to have your absence be excused, you will need appropriate documentation such as a doctor’s note. This course is designed to promote active participation and critical thinking for students. To fully benefit from this course, you should strive to engage in every aspect of learning, from contributing ideas in class discussion to thoughtful postings on the Discussion Board to seeking the professor and your peers’ help when you have not fully grasped the course materials. Please turn off all cell phones and limit your use of laptops to note-taking while in the classroom. I will not tolerate social networking, personal emailing, and other inappropriate forms of internet usage during lecture and class discussions.
Discussion Board (10%)

Beginning the second week of class, you will be required to respond to a Discussion Board prompt (reading question, image, quote, video, etc.) on the WebCT page created for this class. Your posts should be at least 250 words and not to exceed 500 words. My prompt will be posted by Monday 12noon of the week and your deadline to complete your post will be the end of the week (Friday 12noon). Late submissions will not be accepted. This online work will take the place of class every other Thursday beginning the second week of class (see your schedule). Each post is worth 2.5 points (a total of 4 posts for 10% of your course grade). Your level of engagement with the online work will also count towards your Active Participation grade.

Culture Night Comparative Analysis & Presentations (20%)

You may opt to complete this assignment on your own or form groups of up to 4 individuals. You will need to attend 2 different Culture Nights sponsored by the various organizations on campus (see schedule of Culture Night performances) and write a comparative analysis of the performances, focusing on one major theme from this class. For example, you may analyze the performances through a critique of how Asian American gender and sexual identities are represented in each show or you may focus on how the shows negotiate transnational identities. Individual papers will need to be 3-4 pages in length and group papers will be 5-6 pages. You will also need to present your analysis (5 minutes for individuals and 10 minutes for groups). Presentations will begin during 7th week.

Midterm (25%)

This exam on April 28 (Tuesday) is in-class, closed-book and will require Blue Books. Come prepared! You will be given a study guide for this exam, so I encourage you to form study groups to review the materials from the first 4 weeks of class.

Final Project (25%)

You will be given the chance to represent Asian American culture and identity in this final project that requires you to choose a major theme from the course materials (cumulative) and create a cultural text that depicts, reflects on, or explores your chosen theme. Your cultural text can be a visual artwork (drawing, painting, photography, installation, etc.), video (short film, documentary, etc.), writing (poetry, prose, script), or music. You will need to submit a 1-page analysis of your cultural text. This project is due on Monday, June 8, 2009 between 10-11 AM in my office.

**Majoring or Minoring in Ethnic Studies at UCSD**

Many students take an Ethnic Studies course because the topic is of great interest or because of a need to fulfill a social science, non-contiguous, or other college requirement. Often students have taken three or four classes out of “interest” yet have no information about the major or minor and don’t realize how close they are to a major, a minor, or even a double major. An Ethnic Studies major is excellent preparation for a career in law, public policy, government and politics, journalism, education, public health, social work, international relations, and many other careers. If you would like information about the Ethnic Studies major or minor at UCSD, please contact Yolanda Escamilla, Ethnic Studies Department Undergraduate Advisor, at 858-534-3277 or *yescamilla@ucsd.edu*.
